

JDownloader - Feature #10708

Add ability to show plugin status which either overrides wait status or is shown while wait status is shown

12/14/2013 06:19 PM - pspzockerscene

Description

I noticed that if a downloadLink waits, it is not possible to show any other status.

If we have an internal loop and the status changes with every waittime, at the moment there is no way to show this to the user.

Suggestion:

- Add a way to show a status that replaces the waittime
- Add a way to show a custom status + waittime together
