

JDownloader - Bug #12320

[Mirror-handling] does a bad job after reconnects

03/07/2014 06:06 PM - pspzockerscene

Status: Assigned	Start date: 03/07/2014

Target version: 020 - Next Release 2.0	
Resolution:	
Description You got mirror A and B and some parts. Part 1 of mirror A is nearly finished but then gets interrupted by a reconnect. Now afterwards, instead of finishing part 1 via mirror A, JD will download part 1 via mirror B which makes no sense because it still has 0%. http://board.jdownloader.org/showthread.php?t=55830
