Target version: 010 - Next Major Public Release 1.xxx	
Resolution: Fixed	
Description Please add a normal host-configuration for youtube because it's annoying that JD asks nearly every time you add links even if there are settings to turn on... This is wished by many users. The youtube decrypter could even take the settings from the host plugin i think so guys please do it ;) (One of the threads) http://board.jdownloader.org/showthread.php?p=88822	
Related issues: Related to Bug # 1984: YouTube sometimes gives more than one link to LinkGrabber Closed 06/24/2010
