

JDownloader - Bug #2191

Search, Ctrl+Home, Ctrl+End require selected line in grid

08/10/2010 07:26 AM - drbits

Status:	Closed	Start date:	08/10/2010
Priority:	Normal	Due date:	
Assignee:	scar	% Done:	0%
Category:	GUI	Estimated time:	0.50 hour
Target version:	010 - Next Major Public Release 1.xxx		
Resolution:			
Description			
Unlike version 9.579, in Nightly, one must select a line in the grid immediately before performing any of these three commands. Even if there is a line highlighted in the grid, if it has been used since the line was selected, a line in the grid must be clicked before Search (Ctrl+F in English), Move to top (Ctrl+Home), or Move to bottom (Ctrl+End).
