

JDownloader - Bug #2382

Gui: redesign large menus

09/10/2010 10:53 AM - jiaz

Status:	Closed	Start date:	09/10/2010
Priority:	Normal	Due date:	
Assignee:	Greeny	% Done:	100%
Category:	GUI	Estimated time:	0.00 hour
Target version:	010 - Next Major Public Release 1.xxx		
Resolution:	Fixed		
Description			
<p>Menus don't scroll. For example, in the Premium menu, a sub-menu like "Host A - J" or "Host K - T" has so many items that the menu doesn't fit vertically in my screen (1280x1024). So all very long menus should scroll properly, as they do in Windows.</p> <p>redesign or find workarounds where needed</p>
