<b>Category:</b> General	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 010 - Next Major Public Release 1.xxx	
<b>Resolution:</b>	
<b>Description</b>	
Links should not be removed from the database if they need post processing. This is similar to the problem of JD shutdown being triggered before post-processing is complete.	
The specific problem is when Remove Finished Downloads is set to Package Complete. The downloaded links are deleted from the database before the extracted files can be moved to their finished directory.
