

JDownloader - Feature #3117

Prevent download of Links from an Assembly when a Part fails.

02/27/2011 11:48 AM - drbits

Status: New	Start date: 02/27/2011
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: General	Estimated time: 0.00 hour
Target version: 040 - FarfarAway	
Resolution:	
Description If Mirror-sets within an Assembly are known, then if one of the mirror-sets cannot be downloaded (and doesn't already exist), stop downloading other links until the user indicates to continue or the Assembly becomes completable again (user added Links). Note: An individual Link is also considered a Mirror-Set for this purpose. Note: A place-holder file (*.p?? for rar archives) satisfies a mirror set, but place-holders should be downloaded after other mirrors.
