

JDownloader - Bug #3918

Package Customiser

11/22/2011 12:16 PM - raztoki

Status:	Closed	Start date:	11/22/2011
Priority:	Normal	Due date:	
Assignee:	coalado	% Done:	100%
Category:	DevsOnly	Estimated time:	0.00 hour
Target version:	010 - Next Major Public Release 1.xxx		
Resolution:			

Description

the 'priority ordering' up arrow does not work, down does. Seems to only be a problem when you have a rule that's invalid, which gets added into position 0

to reproduce, add couple rules (anything random)

and third rule empty (all null)

up arrows will not work at times even for rule 2(3rd rule), works other times it doesn't when 3 rules exist

to fix?

probably best not to allow complete null rule to be added??

and with invalid rules: they are placed on top for a reason (brings attention to the user.), but this always on top seems to create issues.

like if you click arrow on your valid rule under the invalid click outside package customiser and back in again, your invalid is no longer on top ;p

so fix those bugs ;p

maybe best to add 'n+1' to all position/rules/uids within user interface and even logs. Most people do not start counting at 0.
