

## JDownloader - Feature #48864

### Packagizer: Download/Move path: Add variable standard download path

07/28/2014 04:19 PM - pspzockerscene

<b>Status:</b> Closed	<b>Start date:</b> 07/28/2014
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> General	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 020 - Next Release 2.0	
<b>Resolution:</b>	
<b>Description</b> Add a variable that if used returns the download path defined in the general settings. This makes it easier to add multiple rules with different subpaths for the main download path. Also the user can change the main path any time and the paths of the packagizer will also be changed. This would also be related to / a step towards this: <a href="http://svn.jdownloader.org/issues/8684">http://svn.jdownloader.org/issues/8684</a>
