Target version: 030 - Version > 2.xxx	
Resolution: Fixed	
Description http://board.jdownloader.org/showthread.php?t=47786 Requested by 2 users "If you have a file package with mirrors and are downloading from mega.co.nz. When file finishes downloading, the file status changes to "decrypting" however the package status shows "finished". The package status should instead also show "decrypting" and later change to "finished" when done."
