<b>Description</b>			
Userrequest:			
Hi,			
scheduler - feature request. I would like to schedule so that download happens between specific hours, free time as per my broadband plan (2am - 8am). scheduling start and stop time does not help as my computer is not always on and most days i switch on the system after ther start time of free download hours and download start doesnt get trigered as start time has passed. Found this feature in FDM which i had used earlierlier. Would love the same to be incorporated in JDownloader. Thankyou.			
Warm Regards,			
V.S.
