

JDownloader - Bug #1222

RAR password prompt with no file name

01/28/2010 10:14 AM - drbits

Status:	Closed	Start date:	01/28/2010
Priority:	High	Due date:	
Assignee:	jiaz	% Done:	100%

Target version:	010 - Next Major Public Release 1.xxx		
Resolution:	No feedback		

Description

When "Settings - Plugins & Addons - JD Unrar - Advanced Setings - Ask for unknown passwords" is not checked, the password prompt still appears. However, the prompt has no file name.

This is very confusing as a user.

(Background: Many of my files have passwords like GraphicStub. Since JD unrar cannot handle passwords with capital letters, I turned off RAR Password prompting.)
