Description

Go to settings -> Account Manager -> Klick on "Buy" (NOT on "Add" before!!)

1. Select uploaded.to -> Continue -> Browser window will open and the login window

About the login window:

Little graphical bug:

(Blue line @ bottom)

2. Do the same, select share-online.biz:

(All fine)

Now do the same with an unknown host - let's say "over-load.me":

As you can see, there is no image - which is no problem BUT in my opinion you should show the name of the host in this area so users actually know where they are.

I know its a small thing but we wanted to keep the menus consistent, didn't we? :D
