

JDownloader - Feature #1579

Deleted files and links should be recoverable

04/12/2010 02:55 AM - drbits

Status: New	Start date: 04/12/2010
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: GUI	Estimated time: 4.00 hours
Target version: 040 - FarfarAway	
Resolution:	
Description	
<p>Recycle bin is used here in the generic sense and intended for all operating systems (the notion started in Unix. On Linux, deleted files can be moved to /tmp/<userid>/deleted</p> <p>When files are deleted, they should be sent to the recycle bin. Ideally, this would be controllable with a setting.</p> <p>When links are deleted, they should be appended to a text file. The line should contain the link (see below for encrypted links), the status, and the password. It should be formatted in a way that the Linkgrabber can interpret if a user copies a line.</p> <p>Related: Feature #740 Plain Text Container</p>
