#### Description

1) There have been some old entries dragging for quite a while about the new Rapidshare premium system ... are those meant to be deleted or kept?

1.5) There have been some Neembuu and FolderWatch entries empty for some time... just a reminder, in case... :)

2) 'Would you kindly' elaborate a list of the Addons considered developer-only? Their description will read "(Developer Addon)" to help discern among the clutter. I've already done it for some, but some other are dubious.

Greets.
