

MyJDownloader Android App - Feature #48494

Kill Switch / Block broken or unsupported clients

07/24/2014 10:17 AM - mrc

Status:	New	Start date:	07/22/2014
Priority:	Normal	Due date:	
Assignee:	mrc	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Introduce a kill switch for broken/unsupported client versions.			
To Discuss:			
<i>Server</i>			
status code != 200, Response should include			
<ul style="list-style-type: none">• ErrorResponse object with the• source: MYJD• type: BLOCKED_CLIENT			
<i>App</i>			
After receiving the BLOCKED_CLIENT error response			
<ul style="list-style-type: none">• the app will permanently refuse to do requests• display a notification to the user to look for an update• there should be a way to recover from a server error (that caused blocking unintentionally)
