Target version:	030 - Version > 2.xxx		
Resolution:			

Description

I changed the language from German to English then restarted JD.

Afterwards, some strange things happened.

As you can see here, languages are mixed which is no problem:

<http://i.snag.gy/EjcpB.jpg>

The funny thing is, when you click on one of the addons, language will be corrected for the extension you clicked, for example chat, see here:
