User Request:			
<p>Please could I request that the about dialog now be converted to a smaller tabbed dialog with maybe the credits tab, auto scrolling, as it is too big to fit properly on my laptop screen and if there are any close buttons etc I do not see them but have to use the close button on the top right of the dialog.</p> <p>I am using RDP into a Windows Server and cannot change the resolution without losing anymore quality.</p>
