<b>Category:</b>	GUI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	020 - Next Release 2.0		
<b>Resolution:</b>			
<b>Description</b>			
<p>At this time, one can easily drag and drop packages into each other - too easily. Too easy, because you can not undo what you have done. JD should warn user when merging packages via DnD.</p>			
<p>Btw, where did the context menu item "Merge Packages" go to? Has it been removed? If so, why?</p>
