

## JDownloader - Bug #85310

### Add links: Container: Export NZB content as DLC container leads to false positive offline content

03/20/2018 04:55 PM - pspzockerscene

<b>Status:</b> Assigned	<b>Start date:</b> 03/20/2018
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b> jiaz	<b>% Done:</b> 0%

<b>Target version:</b> 020 - Next Release 2.0	
<b>Resolution:</b>	
<b>Description</b>	
I've just discovered this:	
I guess this is stupid and there is not really a reason to export an NZB als DLC but on the other side, JD will ask to delete the NZB so in case users want to transfer a package to another JDownloader instance, it just won't work.	
jdlog://8968554433151/ Log shows:	
<ul style="list-style-type: none"><li>- Add NZB and start download via MOCH (content is online)</li><li>- Export as DLC and delete old NZB package</li><li>- Import DLC</li><li>- Start downloads --&gt; All offline</li><li>- Delete all and add NZB again --&gt; Downloads start fine again</li></ul>
