#### Description

<https://board.jdownloader.org/showthread.php?t=85134>

Toolbar Editor --> Add --> Window is too small and options are cut-off

I'm unable to reproduce this in my IDE-version but can reproduce it with a stable JD with default settings.

Maybe it would also be a good idea to save the sizer of that window so that if a user adjusts it manually, it will be the same size next time.
