<b>Description</b> <a href="http://board.jdownloader.org/showthread.php?t=49871">http://board.jdownloader.org/showthread.php?t=49871</a> Example: Shutdown disabled: Enable Shutdown Shutdown enabled: Disable Shutdown I know how it's ment to work but it seems to confuse more than it helps  I'd say, always show "Enable shutdown", regardless of the condition.
