Target version:			
Resolution:			
Description			
<p>we should check timeout handling for correct values we can only decrease them but never increase higher than os defaults</p> <p>see http://support.microsoft.com/kb/170359/en-us http://www.sekuda.com/overriding_the_default_linux_kernel_20_second_tcp_socket_connect_timeout</p> <p>eg mine max out at 65 secs (5 retry) $3+6+12+24+20 = 65$</p> <p>customer with windows xp had smaller values but needs higher because his connect times are about 30-50 secs (first connect, guess firewall)</p> <p>we should check for correct timeouts or check registry and fix values</p>
